

Twice as good!

Maestro 2.50

The autop Maestro 2.50 is an electro-mechanical lift without base-frame which is the perfect lift for the mechanical workshop.

Double telescopic arms lift all small, medium-sized and large types of passenger cars and vans.

Professional lifting technology!

Maestro 2.50

Components

- spindle, cold-rolled, centered, long working life
- Lifting mechanism: 6 large guiding wheels in lubrication-free needle bearings
- Nut set: highest quality due to special synthetic alloy
- Safety system:
 - nut breakage system
 - internal arm locking system
 - control unit with dead-man controls and separate main switch
- slim and symmetric construction makes easy drive-on possible

Standard colour:

Posts: RAL 9002 (white)

Arms: RAL 7016 (grey anthracite)
